

# CEB: Hopper Mounting Plate

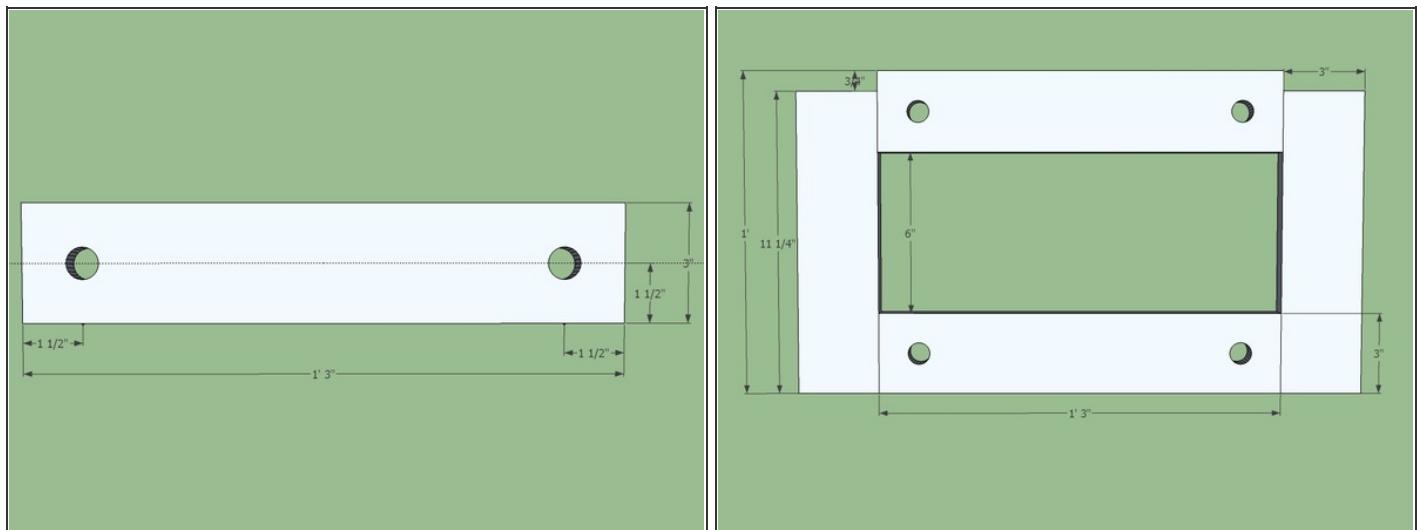

Written By: Brianna Kufa

## TOOLS:

- [Angle grinder \(1\)](#)
- [Welder \(1\)](#)
- [hole puncher \(1\)](#)

## SUMMARY

[Sketchup model](#)

**Step 1 — CEB: Hopper Mounting Plate**

- Punch the holes in the 15" pieces. They are both the same.
- Weld the pieces together, insuring everything is square.
  - There should be a 6" space between the 15" pieces.
  - Skip around so the plate doesn't warp.
  - Weld both sides on all seams
- Grind away the welds on one side of the plate.
